The above is a sample of the way this record should be kept.

If any desire to give monthly, write monthly in the place of weekly, and enter the amounts under the dates of the Sundays on which they are paid. When any subscriber misses one or more Sundays, the amount, when paid, can be marked under each date, or the whole under the date on which it is paid. The latter is the better way, as it shows just when the payments were made. To prove your work foot up the columns each Sunday, carrying the footings forward from page to page, and if the total footings agree with the amount of money it is correct. The total amount of each Sunday's collections can de entered in the Cash Account at the back of the book.

The extra space in each quarter is designed for the fifty-third Sunday whenever it occurs.

The above is a sample of the way this record should be kept.

If any desire to give monthly, write monthly in the place of weekly, and enter the amounts under the dates of the Sundays on which they are paid. When any subscriber misses one or more Sundays, the amount, when paid, can be marked under each date, or the whole under the date on which it is paid. The latter is the better way, as it shows just when the payments were made. To prove your work foot up the columns each Sunday, carrying the footings forward from page to page, and if the total footings agree with the amount of money it is correct. The total amount of each Sunday's collections can be entered in the Cash Account at the back of the book.

The extra space in each quarter is designed for the fifty-third Sunday whenever it occurs.
